

# DATEX II

## webinar series

**REGISTRATION  
NOW OPEN!**

## 6<sup>TH</sup> DATEX II FORUM

### AT THE HEART OF CONNECTIVITY

With the finalization of Version 3, DATEX II is now at the heart of connectivity, supporting the digitalization of road traffic and travel information. Next to important updates implemented for national road operators and service providers, DATEX II has broadened its focus to the domains of urban mobility, electromobility charging infrastructure, logistics, electronic traffic regulations and cooperative, connected and automated mobility.

On the 25<sup>th</sup> of November, the 6<sup>th</sup> DATEX II Forum will open its online doors to all system users, software developers, information architects, ITS consultants as well as policy and decision makers interested in DATEX II.

The schedule of the webinar series is as follows:

25 <sup>th</sup> of November 2020	Getting to know DATEX II	9:00 - 17:00 CET
27 <sup>th</sup> of January 2021	Sharing achievements	9:00 - 12:00 CET
10 <sup>th</sup> of March 2021	DATEX II Version 3.1	9:00 - 12:00 CET
21 <sup>st</sup> of April 2021	DATEX II and the ITS ecosystem	9:00 - 12:00 CEST
26 <sup>th</sup> of May 2021	Future developments	9:00 - 12:00 CEST

Registration is done per webinar day or you can already register for the full webinar series right now. You will receive updates on the programme based on your selection of webinar days. Within each webinar day you are free to choose which session(s) you want to attend, taking into account the three streams: management, functional and technical. So feel free to attend whatever session sparks your interest!

The full programme for each webinar day is published a month prior on <https://datex2.eu/forum2020>
