# CEREMA

## AN OVERALL APPROACH TO LAND USE PLANNING FOR A RESILIENT FUTURE

# ABOUT CEREMA

- **France's leading public agency for adapting to climate change and environmental transition, urban development, buildings, mobility, transport infrastructure, natural hazards and sea & coastal engineering**
- **Over 2593 agents across 25 sites in mainland and overseas France (West Indies and Indian Ocean)**
- **€240m turnover, 80% funded by the French state**
- **Our main clients (excluding central state funding)**
  - 36% private enterprise
  - 32% local authorities
  - 18% French public bodies
  - Others (EU projects -> about 40 on-going projects, ...)

# A BRIDGE BETWEEN STAKEHOLDERS, RESEARCH AND PP

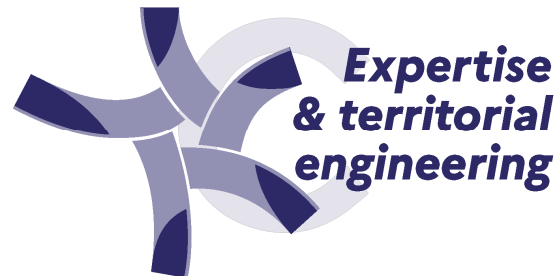

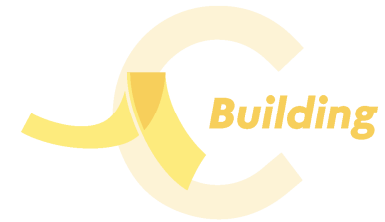

**Cerema, the trusted third party of choice for public and private sector stakeholders, delivering services through:**

- Cutting edge engineering and expertise, focused on the Green Deal
- Innovation for public policy that serves the needs and well-being of the people
- Research- action: 11 research teams (180 people), over 150 projects underway with high levels of technological readiness (TRL)
- Renowned state-of-the-art expertise and methodology (2600 publications), training for a wide range of public and private sector stakeholders

# A NEW STRATEGIC DYNAMIC

- **Resilience, at the core of Cerema's activities, to reduce vulnerabilities**
  - Cerema supports regions to help them manage unavoidable and avoid unmanageable
  - Cerema adapts their needs in order to support their evolution
- **Adaptation to climate change is at the core of all Cerema's activities**
  - Cerema's cross-sectoral approach provides tailored solutions for local authorities, companies and vectors of public policies
  - Though anchored in history, Cerema is looking to the future and is committed over the long terms
- **Missions, values and spirit of public service with a new internal organisation to increase efficiency and responsiveness**
