

Building a mobility in the public interest free, inclusive, sustainable

Laurence Medioni
Chief of Sustainability Officer

23% of GHG emissions in Europe

1 in 4 French people

turned down a job or training course for lack of transport

Creating a transport network that is easy to use for all citizens, whilst protecting public interests at all times.

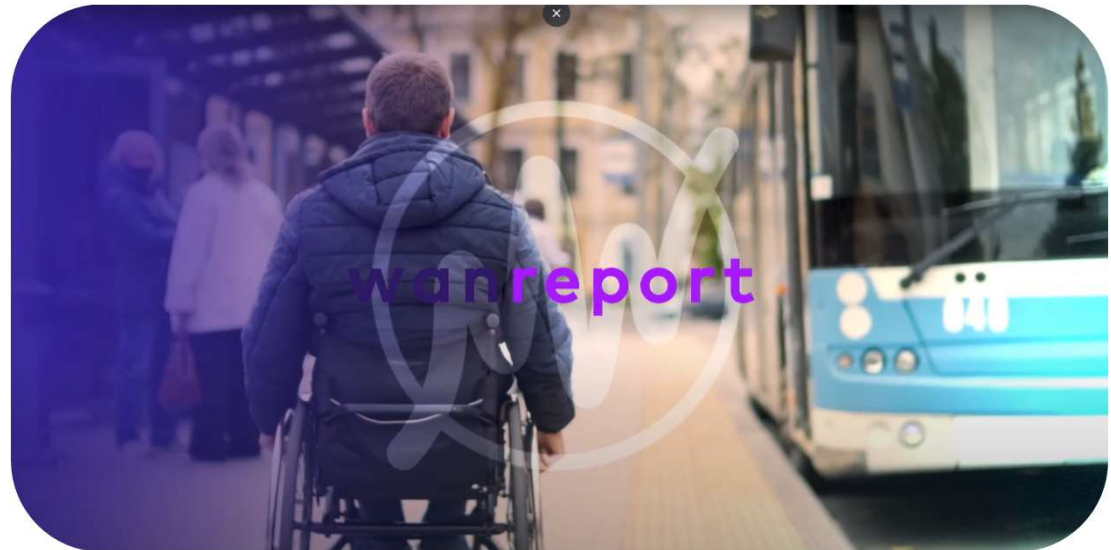

A mobility that is FREE

- › **Intermodal**
- › **Connected**
- › **Simplify**

A mobility that is INCLUSIVE

- › **Accessibility**
- › **Revitalization**
- › **Adapted**

A mobility that is **SUSTAINABLE**

- › **Measure**
- › **Optimise**
- › **Decarbonise**

About us

As a Software as a Service provider, Matawan simplifies everyday travel and facilitates intermodal travel

An ABT mobility platform

To manage transport networks in real time, to link them to other modes of mobility and to provide the means to optimise them.

Improving passenger service

Travelling with a single ticket

Helping to reduce the environmental footprint of travel

Thank you !
